## Washington Radiology Training Tips 02/07/2025

### CTA Head Exams:

- Don't forget we no longer perform Computed Tomography Angiography (CTA) Head exams
- This information is located on the Exams NOT Performed by WR job aid
- Resource: [Exams NOT Performed by WR | Washington Radiology Contact Center](#)

### CT Age Limits:

- Please be sure to check the age limits when scheduling Computed Tomography (CT)
- We do not perform "WITHOUT CONTRAST" CT's on anyone under the age of 16
- We do not perform "WITH CONTRAST" CT's on anyone under the age of 18
- Resource: [Age Limit Guidelines | Washington Radiology Contact Center](#)

CT With IV Contrast	Minimum of 18 years old
CT With Barium Contrast	Minimum of 16 years old
CT Without any Contrast	Minimum of 16 years old
CT Calcium/Cardiac Scoring (NEW)	Minimum of 16 years old

### Documenting Prep Instructions:

- When documenting the Prep Instructions in Notes, make sure to list the detailed instructions that were given to the patient
- Typing "PREP PROVIDED" into the Notes is not acceptable
- Completing this step allows the Center to have confidence that the patient was provided the full prep and be aware of what was communicated to the patient
- The easiest way to do this would be to copy and paste the prep after providing it to the patient
