## Washington Radiology Training Tips 02/21/2025

### Washington DC (K Street) Saturday Sonograms:

- K Street will be offering select sonogram appointments on Saturdays, beginning 02/22/2025
- These will be available between 7:30am-1:00pm and we will utilize 45 minutes slots.
- Exams Performed on Saturdays
  - SN-Neck
  - STHY-Thyroid
  - SCD-Carotid Dopplers
  - SAO and SAOS-Aortas
  - SR-Renal (only for abnormal renal functions, or chronic renal disease)
- If possible, please have the patient send in their order so that it will be in the system on the day of their appointment. Please reiterate that if we do not have the order, they will more than likely not be seen as most provider's offices are closed on Saturdays, preventing us from obtaining the order.

### Fairfax MRI's:

- Our Fairfax center will not be performing MRI's at this time
- We expect to resume these services in April 2025
- If a patient is requesting to wait until April to be seen at Fairfax, please forward the scheduling request to Fairfax; patient's also have the option to be seen at one of the other locations that offers MRI services.
